Work Experience

Project Assistant

Thaddeus Truett Architect - 2021-current

- Collaborated with the design team to develop architectural plans and sketches for residential buildings, utilizing AutoCAD to produce detailed drawings.
- Maintained effective communication and coordination with team members to ensure project objectives were met.
- Conducted weekly site visits to construction sites, documenting progress through photography and verifying adherence to design specifications.
- Assisted in additional project tasks as needed to support project completion and client satisfaction.

Associate Video Producer/Photographer

Cambrick Yard (DisneyFoodBlog) - 2020-2021

- Produced and filmed weekly videos and daily bulk content for various social media platforms including YouTube, Instagram, TikTok, and Facebook.
- Developed and produced Disney- and travel-themed content, including photography and videos, aimed at engaging and entertaining audiences.
- Assembled video packages, reviewed edits to ensure content met quality standards and brand guidelines, and organized video footage files to facilitate easy access and retrieval.
- Conducted on-site food photography to capture visually appealing content for promotional purposes.

Photographer

Walt Disney Parks & Entertainment - 2020

- Proactively engaged with guests to offer memorable photo opportunities, ensuring a positive and magical experience.
- Captured high-quality photos of guests using Disney PhotoPass equipment, adhering to company standards for composition and image quality.
- Addressed guests' needs promptly, providing assistance, answering questions, giving directions, and offering relevant information to enhance their visit.

Photographer's Assistant

Attic Fire Photography - 2019

- Assisted principal photographers in setting up and dismantling equipment, ensuring smooth operation of photo shoots.
- Collaborated with photographers to arrange models within scenes, optimizing composition and visual impact.
- Provided support in on-location lighting setups, assisting with the placement and adjustment of lighting equipment to achieve desired effects and enhance image quality.
